

Our Dads2B program provides education to fathers in underprivileged communities on infant mortality. Our weekly in person sessions normally take place at 1 of our 8 meeting sites throughout Columbus, but during the COVID Pandemic we have transitioned online to continue to meet the needs of our Dads.

Our Objective:

To help fathers understand how critical their involvement in their child’s life is before, during & after pregnancy.

Our Approach:

The DAD2B program offers a unique approach to reducing infant mortality by educating both expecting dads and fathers with a child under the age of 1 during our weekly sessions. Also, expecting mothers join us once a month for a joint session. Thus, Dad’s report feeling involved and connected with their partner during the pregnancy. Moms report a better relationship and confidence with their parenting partner. Listed below are a few of the topics offered during programing.

- ☐ The Dad I choose to be
- ☐ Safe sleep environments – Including becoming “Safe Sleep Ambassadors”
- ☐ Supporting mom during the pregnancy “Teamwork”
- ☐ A healthy family environment
- ☐ The Game Plan, what to expect when mom and baby come home
